

WHAT IS THE CHATHAM-KENT ONTARIO HEALTH TEAM?

The Ministry of Health has announced a health system transformation that will see the creation of **Ontario Health Teams (OHT)** responsible for delivering and governing patient care at the local level.

- Alzheimer Society Chatham-Kent
- Canadian Mental Health Association Lambton Kent
- Chatham-Kent Health Alliance
- Chatham-Kent Community Health Centres
- Chatham-Kent Family Health Team
- Chatham-Kent Hospice
- Erie St. Clair Behavioural Supports Ontario
- Erie St. Clair LHIN Home and Community Care
- March of Dimes Canada
- Municipality of Chatham-Kent
- St. Andrew's Residence
- Thamesview Family Health Team
- TransForm Shared Services Organization
- Westover Treatment Centre

1 of 31

We are one of 31 applicants from across the province chosen to move forward to the full application phase of becoming an official OHT.

Population, Performance & Quality

Home and Community Care Services

Integrated Care Design

Diversity & Equity

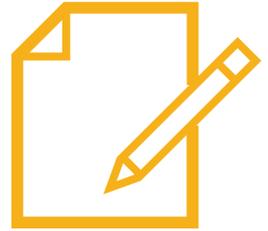

Digital & Virtual Access

Governance and Leadership

Staff, leaders and patient advisors from each of the phase 1 partners are collaborating to support a project steering committee and six work streams that target specific elements of the full application.

Steering Committee

Using the expertise within our partners ensures our application is reflective of the high-quality programs, services and overall health care being provided to patients across Chatham-Kent, and the opportunities that exist by having a strengthened relationship between partners through the CKOHT.

The ultimate **goal of the CKOHT** is to bring together health care partners from **all sectors** to provide **seamless, fully coordinated care** for patients, while creating a more efficient system.

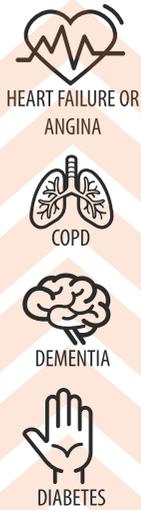

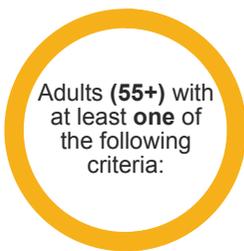

To ensure the **patient voice** is heard, we have engaged more than two dozen patient advisors to sit on each of the work streams. Additionally, a patient advisor is one of three committee co-chairs.

Strengthened relationships

The full application was submitted on **October 9, 2019**. Successful applicants will likely be notified in early 2020.

If we are **approved** to move forward, in the **first year**, the **CKOHT** will focus on....

Year One Population approximately **10,000 patients**

All health care partners within the CKOHT will continue to support **all patients**. The **goal** is to focus on **programs and initiatives** that will further enhance care for the year one target population.

and/or are complex (using Health Links definition)

Our attributed population

82,944 patients currently enrolled with primary care

of all costs are attributed to **chronic conditions**

Top costs based on Health Profile Groups include Dementia, Palliative and Skin Ulcers

At maturity, the CKOHT will serve the

105,241

residents of Chatham-Kent, Walpole Island, and surrounding areas
